### Helpful Tip

If you select **Remember Company ID**, your Company ID will be saved for future logins. Next time, you will only need to enter your User ID and Password, which helps reduce typing errors and speeds up the login process.

### Additional Security

For security purposes, you may occasionally be asked to complete an extra authentication step during login such as re-entering and saving your Company ID. This may happen if you change browsers, clear browser history, clear cache and cookies, or manually delete stored data.
